Events for ASA-Medical Student Component at Annual Meeting (October 15-17)

There will be many events for medical students at this year's annual meeting in addition to all of the other ASA events. The highlight of the ASA-Medical Student Component meeting will be the meeting of the House of Delegates which will include elections of this year's governing council as well as many guest speakers that will talk about various aspects of anesthesia and residency. Keep in mind that you do not need to be a delegate for your school to attend the House of Delegates meeting. Following the House of Delegates meeting, there will be a residency program director "meet and greet" with over 40 program directors from anesthesia programs across the country. Saturday night will include a combined social event with the resident component at a location TBA. Registration for the ASA Annual Meeting is free for medical students.

Additionally, it is not too late to apply to become a delegate or run for election for a governing council position. More information can be found on the ASA-Medical Student Component website.
